SOUND FAMILIAR?

YOU KNOW YOU NEED TO BE POSTING. SO WHAT'S STOPPING YOU?

You have real experience. Real skills. Real results you've gotten for people.

And absolutely nobody online knows you exist.

While you've been waiting to feel ready, someone with a fraction of your knowledge opened their phone, hit record, and started building an audience. They're not more qualified than you. They're not more talented. They don't have better advice or a better story.

They just showed up. And you didn't.

That's a brutal thing to sit with — but it's the truth.

Every day you stay off camera is another day the wrong people are filling the space that belongs to you. Coaches who overpromise. Gurus selling shortcuts they've never actually used. People with perfect branding and hollow advice are collecting the clients, the followers, and the income that should be going to someone like you.

And they're winning because they understood one thing before you did:

Being good at what you do means nothing if nobody can find you.

You already know this. That's the part that keeps you up at night. Not "should I make content" — you know the answer to that. The real question is why, knowing everything you know, you still haven't started.

THAT'S EXACTLY WHAT THIS CHALLENGE WAS BUILT TO FIX.

THE REALITY CHECK

THE WINDOW IS STILL OPEN. BUT IT WON'T BE FOREVER.

Here's what nobody in the "build your brand" space wants to say out loud:

Getting noticed online is harder than it was two years ago. The platforms are flooded. Every niche is crowded. AI is generating more content in a single day than the entire internet held a decade ago.

And the creators who started showing up consistently back then? They already have the head start. The audience. The trust. The algorithm working in their favor.

So what does that mean for you?

Waiting is no longer a neutral decision. Every month you stay invisible is a month someone else in your space gets stronger, more established, and harder to compete with.

But here's what the doom and gloom crowd always leaves out:

Consistency still beats everything.

Not production value. Not follower count. Not how long someone has been doing this. The creators winning right now are winning because they show up with something real to say and they never stop.

You have the second part handled. You just need the first.

The window is still open. But you need to walk through it now — not later.

INTRODUCING

7 VIDEOS. 7 DAYS.

THE KICKSTARTER THAT FINALLY GETS YOU MOVING.

This is not a course. There are no modules to watch before you're allowed to start. No homework to finish before you feel ready. No 47-step framework to memorize.

This is a kickstarter with one job: get you posting.

01 You will know exactly what to say.

The app builds your scripts before you ever pick up your phone.

02 You will know how to say it.

The tools show you how to make it look and sound great without any gear.

03 You will have real people around you.

Doing the exact same thing, at the exact same time.

By the time you hit your seventh video, something will have shifted. Not just because you have 7 videos posted — but because you will have proved something to yourself that no amount of research ever could.

That you can do this. That your voice works on camera. That people actually respond when you show up.

I'M READY. LET'S DO THIS.

DO THEM IN 7 DAYS OR 7 WEEKS — YOUR PACE, YOUR TERMS

YOUR SECRET WEAPON

MEET THE APP THAT HANDS YOU YOUR FIRST 7 SCRIPTS.

The biggest reason people never post their first video has nothing to do with confidence or cameras or lighting.

It's not knowing what to say.

That one problem kills more potential content creators than anything else. You sit down to film and your mind goes blank. You write a script and it sounds nothing like you. You watch it back and delete it before anyone can see it.

This app was built to solve that specific problem. It took months to build. It has been tested with real people who were exactly where you are right now. And it works.

STEP
01

FIND YOUR LEVEL

Answer a few simple questions about where you are, what you do, and who you want to reach. First timer, fallen off, or business owner who just needs to start — it meets you exactly where you are.

STEP
02

BUILD YOUR SCRIPTS

The wizard generates 7 custom video scripts built around your voice, your niche, and your message. Not generic content you could have Googled. Scripts that actually sound like you.

STEP
03

PRESS RECORD

Open your script. Hit record. Post it. The hardest part of making a video has always been knowing what to say. That part is handled.

This app was built specifically for people who have something real to say but freeze the moment the camera turns on. It is the exact tool David uses with his private clients. It is included in your challenge. And it is the reason this works when everything else you have tried has not.

Here's something most people selling content challenges won't admit:

I built my entire business without content. No TikToks. No Reels. No posting strategy. Just real conversations, real outreach, and showing up for people in ways that most coaches and consultants never bother to.

That worked. It still works.

But I kept watching something happen that I couldn't shake. People with less experience than me. Less skill. Less genuine care for the people they were supposed to be helping. They were growing online, landing clients, and building real businesses while I stayed invisible because I was not willing to get on camera.

And the people getting hurt by that? They were going to the flashy guy because he showed up and I didn't.

Here's what I know about the people I work with best. They are usually the ones who want to be on stage, leading workshops, changing lives. They know they are good. They know they have something real to give.

And yet the second they need to film a short video, they freeze. They overthink it. They record six takes, hate all of them, and disappear for three months.

I get that more than I ever wanted to.

So I built the system I wished existed. I tested it. I put real people through it. And now I am putting myself through the exact same process — publicly, inside this challenge, right alongside everyone who joins.

Because I am done playing small. And I think you are too.

NO CATCH.

I want to be completely straight with you about something.

- There is no \$997 program hiding behind this.
- No subscription that quietly kicks in after your trial.
- No webinar you have to sit through first.
- No upsell waiting on the next page.

You pay \$7. You get everything on this page. Right now. That is the whole transaction.

I priced it this way because I have watched too many people use price as the reason they stay stuck. Seven dollars is not an investment in a course. It is a decision to stop being invisible.

What you will not forget is posting your first video. What you will not forget is the comment from a stranger who watched it and said it helped them.

That moment starts here. Right now. For \$7.

I'M READY. LET'S BUILD SOMETHING.

IS THIS FOR YOU?

THIS WAS BUILT FOR YOU.

Specifically you. Not everyone. Read this and see if it lands.

THIS IS FOR YOU IF...

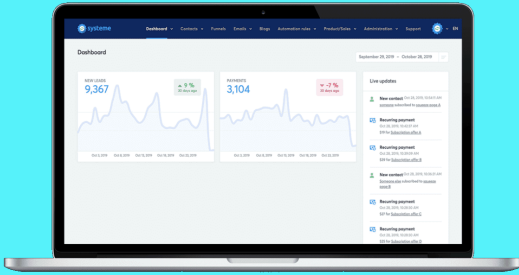

- ✓ You have a business, a skill, or a message — and the people who need you most have no idea you exist.
- ✓ You have been meaning to post for months and something always gets in the way.
- ✓ You have posted before but never felt good about what you put out.
- ✓ You are an overthinker who needs a system more than inspiration.
- ✓ You are tired of watching less qualified people get more attention.
- ✓ You have failed streak-based challenges before and need something that works at your pace.

THIS IS NOT FOR YOU IF...

- ✗ You want results without showing up at all.
- ✗ You are not willing to film at least one video this week.
- ✗ You think the problem is your equipment, your lighting, or your jawline.

If you read that first list and felt seen, stop waiting. The people who need to find you are out there right now. **They just can't find you yet.**

GOT QUESTIONS?

LET'S CLEAR THIS UP.

What exactly is this?

Do I have to do one video every day?

I genuinely don't have time for this.

What if I don't want to show my face?

What if nobody watches?

What if I fail?

👤 I'm a creative / artist / don't have a business yet. Is this still for me? +

😬 What if I'm just not someone people want to watch? +

📷 Do I need fancy equipment? +

💰 What exactly am I getting for \$7? +

🔥 I've tried things like this before and quit. What makes this different? +

THE LAST THING I'LL SAY

YOU'VE BEEN READY. YOU JUST NEEDED THE RIGHT SYSTEM.

You do not need more research.

You do not need better equipment, a bigger following, or a more polished version of yourself before you are allowed to start. That version of yourself is not coming. The only way to become someone who shows up consistently is to start showing up.

Right now there are people out there who need to find you. They need your experience, your perspective, and the specific way you explain things that nobody else explains quite the same way.

But they cannot find you. Because you are not out there yet.

Seven videos changes that. Not because seven videos makes you famous. But because seven videos makes you real. It makes you findable. It makes you someone who showed up when it was uncomfortable and did it anyway.

That is who people trust. That is who people hire. That is who people tell their friends about.

Do them in seven days. Do them in seven weeks. Do them whenever you can.

Just do them.

ACTUALLY SEE.**
